### DETAILED ACTION

This Office action is in response to the Amendment filed on November 13, 2006. Applicant's cooperation in correcting the informalities in the drawing, abstract and specification is appreciated. Applicant's cooperation in amending the claims to overcome the claim rejection relating to indefinite claim language is also appreciated.

Claims 1 and 5 were amended; claims 8-9, 23 and 28 were cancelled.

This application is in condition for allowance except for the following formal matters:

- **IN THE ABSTRACT:**

Since the Amended Abstract filed on November 13, 2006 is still too long and contains **235 words**, applicant is required to submit a substitute abstract to meet the requirement set forth below:

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to **a single paragraph on a separate sheet within the range of 50 to 150 words**. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

***Conclusion***

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
